Chic Designs for Sophisticated Interiors

In celebration of Leporello's 20th anniversary we are delighted to present our latest collection - Contemporary Living - designs conceived for both sophisticated modern spaces as well as refined classical interiors.

This exclusive collection showcases Leporello's innovative design skills and high standards of craftsmanship. Featuring the award-winning Evo designs complemented by the highly regarded Contemporary Collection.

Evo represents an 'evolution' in two senses - the fusion of natural materials into beautifully crafted furniture and our move towards a new contemporary aesthetic.

Taking inspiration from copper veins in seams of sedimentary rock, with ingenuity and patience we created exquisite textured polished bronze panels as a key feature. The sleek lines and luxurious finishes provide a modern opulent yet grounded collection of furniture that adds texture, warmth and originality to an interior concept.

Whilst we offer an exclusive collection of designs hand made to order, Leporello is much more than the sum of its products. You should think of us more as a service than a manufacturer. We believe in listening to our clients and creating bespoke solutions to individual requirements, be it adapting proportions to an awkward space, matching a colour or designing one off pieces.

From a single item to a large-scale contract, our approach is the same. First we take the time to understand your brief and explore the options; only then do we set about bringing the project to life, involving ourselves in every step of the process from your first enquiry until it comes together satisfyingly on the day of delivery.

We hope that this new collection will inspire you and we look forward to working together in the near future.

Showroom

Our showroom at No. 5 Old Char Wharf is open weekdays and weekends by appointment. We are easy to find approximately ten minutes drive from Junction 9 of the M25. Please call direct on 01306 875550 if you wish to make an appointment.

Timber

Frames are made from hand selected hardwoods including beech, poplar and cherry. Panels are cut from veneered boards for stability. This combination offers an excellent, strong, smooth and stable base for our multi-layered paint finishes, however, remember that wood is a live material and may react to the effects of excessive temperature, moisture or sunlight.

Construction

Our furniture follows time proved construction methods. All frames are formed with mortice & tenon joints that are well glued and are extremely strong and light. Drawers are assembled with dovetail joints on traditional guides. The Evo designs are fitted with self closing metal runners. The hardware has been carefully selected for its aesthetic sympathy, durability and efficiency.

Paint Finishes

Our furniture is painted with non toxic water based paints and sealed with a protective lacquer. As colours have an evolving nature, ask to see our latest additions. A special colour and finish service is available and we will give you a quotation based on your specification.
