

Leporello

Fine furniture designed and made in England

The *Elysian* Collection

The *Elysian* Collection — French inspired furniture designed and made in England.

We are delighted to show you the Elysian Collection. Drawing inspiration from the decorative Louis styles and the simpler yet graceful Transitional style, both the authentic classic Anton Range and the smart contemporary Etien Range work equally well in refined and contemporary interiors and are good examples of our passion and commitment to excellence in design and craftsmanship.

As a progression from our Leporello catalogue, the Elysian Collection offers diversity in style. There are new materials, cherry wood, caning, mirrored glass, inlays and cast bronze fittings. Much consideration has gone into the design features – the floral carvings and oval shapes in the Anton Range and the gracious serpentine fronts, twisted upright posts, multi directional curved panels with vee groove detailing in the Etien range. We have developed special Antique and Distressed paint finishes inspired from visits to French chateaux, Swedish churches and palaces in Lisbon.

Our objective is to create elegant, comfortable furniture for you and your home with an individual and reliable service. Each piece is handmade to order and meticulously finished by our team of highly skilled craftsmen at Leporello in Dorking, allowing you a flexibility in design and a choice of paint colours and treatments.

We hope that you will be inspired by the beautiful photography of this exciting new collection and look forward to helping turn your dream project into reality.

We are frequently asked for bespoke designs – bunk beds, lits bateaux, fully dressed four post beds, long chests and are delighted to be able to respond with a design that will be truly individual for your child.

Useful Information

Showroom

Our spacious showroom at No. 4 Old Char Wharf is open weekdays and weekends by appointment. We are easy to find approximately ten minutes drive from Junction 9 of the M25. Please call direct on 01306 875550 if you wish to make an appointment.

Timber

Frames are made from hand selected hardwoods including beech, poplar and cherry. Panels are cut from veneered boards for stability. This combination offers an excellent, strong, smooth and stable base for our multi-layered paint finishes, however, remember that wood is a live material and may react to the effects of excessive temperature, moisture or sunlight.

Construction

Our furniture follows time proved construction methods. All frames are formed with mortice & tenon joints that are well glued and are extremely strong and light. Drawers are assembled with dovetail joints on traditional guides. The hardware has been carefully selected for its aesthetic sympathy, durability and efficiency.

Paint Finishes

Our furniture is painted with non toxic water based paints and sealed with a protective lacquer. As colours have an evolving nature, ask to see our latest additions. A special colour and finish service is available and we will give you a quotation based on your specification.

Beds & Mattresses

Single beds come with a sturdy set of pine slats, all other sizes include high quality metal framed beech twin sprung slatted bases.

MATTRESS SIZES:-

Single	3ft x 6ft 3"*
Middle	4ft 6" x 6ft 3"
Great	5ft x 6ft 6"
King	6ft x 6ft 6"

*4ft x 6ft 3" for Etien Four Post Single Bed

We supply a choice of quality mattresses made by a leading British luxury bed manufacturer, specifically designed for use on frame beds with sprung slatted bases.

Headboards are designed to fit to a divan base, alternatively they can be fixed to a wall. All headboards may be panelled, caned or upholstered.

Visitor beds come as a metal frame (which can be raised to 18") with a sprung slatted base and hand made mattress. These fit under our single beds or alternatively in a Trundle box on castors.

Chairs & Stools

Prices include upholstery in customer's choice of fabric but not the cost of the fabric. All upholstery fabrics must comply with the current fire retardancy regulations. Barrier /back coating and stain repellent treatments are available at an additional cost if required. We will order fabric on your behalf.
